An improvement in the growth profile over the 3rd quarter

During the 3rd quarter of the 2008 financial year, Osiatis has recorded a turnover of €57.1 M€, an increase of +2.7% compared with the 3rd quarter last year. Business has progressed by +2.4% in France and by +4.9% on the international market.

Turnover amounts to 178.3M€ for the first nine months of the year, an increase of +1.8%. Business has progressed by +0.8% in France and by +8.8% on the international market. The international market now represents 13% of consolidated business.

Growth of +3.0% in infrastructure services.

The Group has recorded a business volume amounting to 150.3 M€ in infrastructure services over the first 9 months of the year, an increase of +3,0%, with similar dynamics for the 3rd quarter (48.2 M€), confirming the positive trend in demand, but with prices that are still under stress.

A return to growth in New Technology developments

After being repositioned, New Technology development business is now stabilised. After a disappointing 1st quarter, business has increased in the 3rd quarter for the second consecutive period with turnover at 8.9M€. Total turnover for the 9-month period amounts to 28M€.

Perspectives

The present context, less flourishing for IT spending, is creating uncertainty concerning fulfilment of certain projects during the 4th quarter. Even so, the present order book should enable the Group to achieve a turnover for 2008 that is up on 2007.

Next meeting: Publication of the annual turnover for 2008 on 3 February 2009, before the market opens.
